PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Python, Power BI, Excel, Data Modeling, Dashboard Development, KPI Tracking, Statistical Analysis, and Business Intelligence. Experienced in transforming data into actionable insights, automating reports, and supporting business growth through data-driven decision making.

EDUCATION

Maharaja Agrasen Institute of Technology 2023 – Present
B.Tech in Information Technology (AI/ML) — CGPA: 9.0/10 Delhi, India

PROJECTS

- A/B Testing for Conversion Optimization** 2025
- Analyzed experiment data using Python to compare conversion rates between control and treatment groups.
 - Performed statistical hypothesis testing and confidence interval analysis to determine experiment significance.
 - Created automated reports and visualizations in Python and Excel to communicate findings and recommendations.
- Sales Analytics & Revenue Forecasting** 2025
- Analyzed \$2.9B+ sales data across 45 Walmart stores using Power BI and DAX to identify revenue trends and key drivers.
 - Built interactive dashboards tracking sales, CPI, fuel prices, and unemployment metrics through dynamic visualizations.
 - Performed data cleaning, transformation, and modeling using Power Query to enable business reporting and trend analysis.
- Customer Churn Analysis Dashboard** 2025
- Analyzed customer behavior data to identify key churn drivers and retention opportunities.
 - Developed machine learning models for churn prediction, achieving 85% classification accuracy.
 - Designed Power BI dashboards with customer segmentation, churn KPIs, and retention insights.
- IPL Analytics Dashboard & Data Pipeline** 2025
- Built an end-to-end analytics pipeline for 70+ IPL matches using Python, SQL, and Power BI.
 - Performed data modeling and analysis using joins, aggregations, and window functions to derive player and team insights.
 - Developed interactive dashboards tracking match outcomes, player performance, venue statistics, and season trends.

EXPERIENCE

- InnovationM** June 2025 – August 2025
Frontend Intern Delhi, India
- Learned React.js and built projects such as a To-Do App and Weather App using modern frontend development practices.
 - Worked on internal company projects, contributing to feature development, UI enhancements, and application maintenance.

TECHNICAL SKILLS

Data Analytics: Data Analysis, Business Analytics, Operations Analytics, Data Collection, Data Management, Data Modeling, KPI Tracking, Business Intelligence
Programming: Python, SQL, C, C++, JavaScript
SQL: Joins, CTEs, Window Functions, Aggregations, Query Optimization
Excel: Advanced Excel, Pivot Tables, VLOOKUP, XLOOKUP, Power Query, Dashboards, Reporting Automation
Data Visualization: Power BI, Tableau, Excel Dashboards
Statistical Analysis: Hypothesis Testing, Regression Analysis, A/B Testing, Forecasting
Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Databases: MySQL, MongoDB
Business Skills: Quantitative Analysis, Qualitative Analysis, Problem Solving, Stakeholder Reporting, Presentation Development
Tools: Jupyter Notebook, VS Code, Git, GitHub

CERTIFICATIONS

Google Data Analytics Professional Certificate – Coursera (2026)
SQL (Basic/Intermediate) Certification – HackerRank (2026)
Advanced Excel for Data Analysis – Coursera (2026 – Ongoing)
